

# fHumanity, You're Hypocritical

Humanity, you're Hypocritical.

You love to filter your instagram photos,

But complain when others do.

You love to post on facebook

How you hate people on facebook.

You complain about global warming

When you do nothing to stop it.

You tend to do the opposite actually,

You deny that it even exists,

While you drive around in gas guzzlers.

Humanity, you're Hypocritical.

You'll complain about immigrants

As long as they're in Your country.

Yet you find it utterly Abominable

That others would close their borders.

You want to clean up the beach.

You want to clean up the ocean.

Your garbage says otherwise,

As you throw it wherever.

You pollute what you're trying to save

Humanity, you're Hypocritical.

You'll try to build houses

For the people you put in poverty;

You'll refuse to give people a living wage,

And then you'll cut social security.

Humanity, you're Hypocritical,

And quite frankly,

Confusing as hell.

So raise your glasses to AA,

And drink to the victims of alcohol poisoning.
